Notes

Job Type categories and the Primary Appointment methodology changed in 2013. Workforce Census headcounts prepared before April 2013 reflect those earlier specifications.

Each person is counted only once, regardless of whether they hold multiple jobs/positions in one or more departments. This census only counts those who had active jobs or were on leave on the snapshot date.

A primary appointment algorithm is used to determine which job/job type to count each person in if they have more than one job.

* Other Academic includes 1034 University Extension & Cooperative Extension teachers, coordinators, and specialists

‡ Faculty currently serving in administrative appointments are counted in their faculty appointments (e.g., Chancellor, Vice-Chancellors, Directors)

Affiliates Non-Employees are individuals who have a role recognized by the campus that does not include an appointment, pay, or student status.

No employees are expected to appear in cells that are blacked out.
